

VACUUM

HANDLING EQUIPMENT FOR PAVERS, NATURAL STONE AND PRECAST CONCRETE SLABS

- Reduce Labor Costs by 50% on Slab Installation
- Models for Both In-Plant and Job-Site Applications
- Reduce Worker Fatigue & Injury While Improving Productivity at the Same Time

MAMMOTHMITE 110-VOLT 265 lbs capacity

Powerful electrically-driven Vacuum Turbine delivers up to 265 lbs lifting capacity and the ability to grip porous and rough surface slabs.

Lifting Capacity: 265 lbs (120 kg)
Total Weight with Suction Plate: 35 lbs (16 kg)

VACUUM EQUIPMENT

MAMMOTHMITE 12-VOLT 330 lbs capacity

Rechargeable 12 V battery power. Faster installation times and reduced worker fatigue and injury.

Lifting Capacity: 330 lbs (150 kg)
Total Weight with Suction Plate: 37 lbs (17 kg)
